Congruent Triangles Worksheet B

Write congruency statements for parts of triangles that are given in each diagram, then write congruency statements that we can determine using properties of rectangles, vertical angles, the reflexive property etc. For each statement that was not originally given in the diagram explain how you determined that the parts were congruent. The first one has been done as a sample.

Diagram	Given	New Statements & Reasons
	$\angle FGL = \angle HLD$ $FG = HL$	$GL = LD$ By the Reflexive Property of Congruence

Prove: The given triangle are congruent.

A. SSA C. SSS

B. ASA D. HL

Prove: $\triangle TRS \cong \triangle SQR$

A. SSA C. SSS

B. SAS D. HL

- State if the two triangles are congruent. If they are, state how you know.
